Skills

React, React-Native, Javascript, next-js, remix, monorepo, material-ui, redux, relay, leadership, html, css, unit-testing, Cypress, CI/CD, building, Typescript, responsive website, building ui following the material design guidelines, building highly performant web pages for good seo ranking

An expert in react, react-native, relay and an open source enthusiast. I have a total of 5.5 years of experience working professionally. I build web and mobile applications using cutting edge technologies. I also build libraries and own apps during my free time. My approach to software development is developer-supportive, balancing technical needs, team skills, and product requirements. Mentoring and pair-programming are really rewarding, and I excel at planning and developing solutions for longer-term timescales

Work History

2018-11 -
Current

Lead Frontend Engineer

Memorang Labs Private Limited, Chennai

- Refactored and recreated memorang from scratch. I set up the project using **monorepo architecture** which has web, mobile applications and a common module used across the apps
- Created several **whitelabel** mobile apps and websites for partners
- Solved some complex UI/UX, for instance : A page with dynamic n number of editors supporting rich text formatting and doing efficient api calls on each action.
- All the apps are built using the latest/popular framework, for instance : next js, latest react, remix etc. Also all the component have unit-test, integration-test written using **Jest, CypressJs** and a well typed code using **Typescript**
- I lead everything related to frontend

2016-06 -
2018-10

Frontend Developer

Qube cinema technologies, Chennai

- I refactored the **Justickets** mobile app for qube cinema
- Handled end-to-end feature developments, also integrate multiple payment providers
- Created **Moviebuff** application from scratch, has complex feature such monthly calendar, yearly infinite calendar etc

2015-09 -
2016-06

Programmer Analyst Trainee

Cognizant technology solution, Chennai

- Worked on adpart android application
