OVERVIEW

- An expert in react, react-native & relay with 4.5 years of experience and an open source enthusiastic

- I build web and mobile applications using cutting edge technologies

- My approach to software development is developer-supportive, balancing technical needs, team skills, and product requirements. Mentoring and pair-programming are really rewarding, and I excel at planning and developing solutions for longer-term timescales

SKILLS

React · React Native · Node.js · JavaScript · Typescript · GraphQL · REST APIs · CI/CD · Flow · Relay · Next js · Material-ui
